ABOUT STERAMIST®

Evolve Your Fleet with SteraMist® Disinfection

A premium disinfection designed for your EMS vehicle!

When it comes to providing emergency services, your community relies on you to provide immediate response times with reliable, disinfected equipment and vehicles. Deliver the convenient, effective disinfection you need to reduce downtime and return your emergency services operations with SteraMist - a flexible, non-corrosive, and cost-effective disinfection!

WIDESPREAD COVERAGE

A single applicator delivers SteraMist to every corner of your ambulance, disinfecting with ease.

REDUCE OVERALL DOWNTIME

Kill on contact with no wet time to return to operations fast, spending less time and solution on treating surfaces.

EPA REGISTERED (NO. 90150-2)

List G (Norovirus), H (MRSA), K (*C. difficile* spores), L (Ebola), M (H1N1), N (SARS-CoV-2)

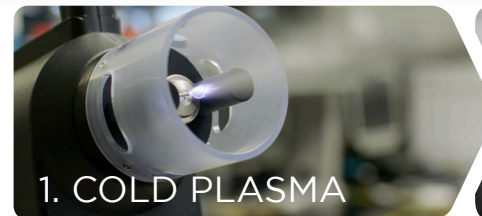

NO RESIDUE TO WIPE OR RINSE

Avoid cross contamination and save time with a powerful nanometer-sized spray-and-go approach.

DID YOU KNOW?

Each SteraMist product uses BIT™ Solution and iHP Technology! SteraMist is an EPA-registered combination that ensures consistent efficacy throughout every product. Choose the best application for your needs!

DISCOVER THE **IONIZED HYDROGEN PEROXIDE (iHP™)** PROCESS:

2. DISPERSION

3. CONTACT

4. PATHOGEN KILL

VERSATILITY & EXTENSIVE USE SITES

Deliver SteraMist® Efficacy to **Any Area**

From emergency vehicles to facility areas.

In addition to your vehicle, SteraMist ionized Hydrogen Peroxide (iHP™) can be deployed in the event of a routine or emergency disinfection on any surface.

- Prevent outbreaks at the source with versatile, fast-acting hospital-healthcare disinfection.
- Quickly address other critical surfaces like EMS vehicle bays and lockers after each shift.
- SteraMist treats surfaces without damaging them, unlike many other harsh chemicals.
- Ideal for any model of ambulance on the market.

STERAMIST® SOLUTIONS

Discover Your **Perfect SteraMist® Solution**

From portable disinfection to integrated vehicle systems.

STERAPAK® - PREMIUM PORTABLE DISINFECTION

Technology developed by DARPA and powered by nature, the SteraPak is back-mounted and delivers efficacy that goes everywhere, providing an unmatched level of control.

- Cordless, compact, and reaches the smallest of areas with high-log efficacy.
- Non-corrosive application for every surface.
- Eco-friendly disinfection kills pathogens on contact.
- No mixing, wiping, or rinsing required.

TRANSPORT CUSTOM ENGINEERED SYSTEM (CES)

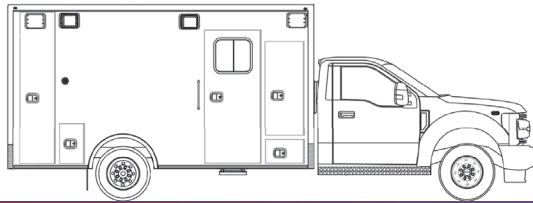

The SteraMist Transport Custom Engineered System (CES) is integrated disinfection built per specification, deploying premium efficacy that reduces cost, downtime, and infection rates with minimum effort.

- All SteraMist components are hosted within the vehicle.
- Integrated, automated door lock system.
- Remote activated with relay outputs and a programmable timer.
- Custom protocol ensures precise disinfection time.

AMBULANCE CES INTEGRATION

STERAMIST® IS COMPATIBLE WITH **ANY EMERGENCY VEHICLE TYPE**

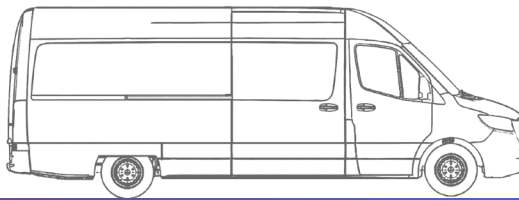

Whether you choose the surface disinfection of the SteraPak or the integrated air/surface disinfection of the Transport CES, each SteraMist product delivers consistent results to help you focus on staff and patient health and operation.

TYPE 1

TAILORED TO **YOUR PATIENT MODULE.**

Your custom patient module needs and deserves a disinfection designed to support it. When integrated into Type 1 vehicles, SteraMist can quickly navigate every inch of the vehicle, from the rear area to the front cabin through the smallest opening.

TYPE 2

AS FAST AS **YOUR RESPONSE TIME.**

Every second of time is critical when dealing with emergency patient response, and SteraMist ensures that no time is wasted with minimal downtime and no need to follow-up with wiping or rinsing.

TYPE 3

TREATS EVERY INCH OF **YOUR CRITICAL SPACE.**

No matter the emergency response vehicle, every corner and crevice can hide lurking threats that may jeopardize patient and staff health with costly consequences. SteraMist can fight these threats with fast results.

STERAMIST® CUSTOMER REVIEWS

Customer Experience Feedback

Discover the impact of SteraMist technology on our customers.

“SteraMist is paramount in maintaining operations in the wake of COVID-19 because it can be used to decontaminate key equipment... within minutes for fast turnaround of our emergency vehicle fleet.”

Fire Chief
Cincinnati/Northern Kentucky International Airport Fire

“Bensalem has the cleanest ambulance fleet with SteraMist disinfection and the fleet is operationally ready on all levels... older [ambulances] are just like brand new in their cleanliness level.”

Battalion Fire Chief
Bensalem Emergency Medical Services

“SteraMist not only decontaminates the room itself, but decontaminates the materials & devices that employees are coming in contact with. Our staff has been intensively cleaning; SteraMist takes that to another level.”

Director of Emergency Communications
Frederick County 911 Emergency Communications Center

“The most important consideration we have is the safety of our citizens and our employees, especially our amazing first responders who have been on the front line of this pandemic... After looking into all the various options, we determined that [SteraMist] is the best of the best.”

Fire Commissioner
City of Chester
